January 7, 2015

Dear Students, Parents & Patrons,

I am writing to inform everyone of recent facility enhancements that will provide the community with a safe, warm and dry environment to work on baseball/softball skills when it is not suitable to be outside. The completion of the vocational agriculture building at the high school left a very large building vacant with no immediate future plans. Thanks to the help of many individuals, primarily Mr. Estep, this facility has been renovated into an indoor practice facility, complete with two batting cages, hitting T's, with the floor covered with sport turf, complements of Missouri State University.

The facility will be available for the public to use during the school year, on days when school is in session from 6 p.m. until 9 p.m. You will need to see Angela in the superintendent's office to schedule a time and you will be required to sign a facility usage agreement. This agreement assures that damages to the facility will be covered by the user and that the school, its employees and board members will not be responsible for accidents or personal injury.

I have attached two pictures of the facility for your viewing. Please call 258-7755 if you have any questions or would like to schedule the facility for use.

I hope that you enjoy this wonderful opportunity.

Larry L. Brown, Ed.D.
Superintendent of Schools
